

Writing Assignment for Dr. Bidack's General Biology Class

This is a Writing Assignment for Dr. Bidlack's General Biology Class. It is required and worth 50 points; and must be submitted on or before the due date to Dr. Bidlack (in class or personally) at 5:00 PM. You must turn in a hardcopy of your assignment to be graded.

For this assignment, you will write, in your own words, a story about an existing organism, and include a cartoon, drawing, picture, or other representation to accompany your project. You can choose anything that is living - bacterium, protist, fungi, plant, or animal. Your story should be at least 250 words in length and will be graded, based on accuracy, content, entertainment value, and quality. There is no need to include references, although you are welcome to cite any sources you used (the citations are not included in the word count).

The idea is to have fun with this Writing Assignment and make it an entertaining and memorable part of your experience in General Biology. You are encouraged to add anecdotal stories, humor, jokes, and what you have learned in class. Be creative!
